

Introduction

For some people, mealtimes are very difficult and can be hazardous. These are people with 'food allergies'. For some people with a food allergy, eating, drinking or swallowing, even a very tiny portion of certain foods, will trigger an allergic reaction.

Who it is for

This course is for anyone who works with, handles or sells food.

Course aim

This course is designed to give anyone who works in the food industry, a good level of knowledge and understanding of allergens and how they must be handled in production, preparation and sales, to minimise risk to health.

Course content

This online course covers the following topics:

- Food allergies and intolerances
- Symptoms
- Anaphylaxis
- Common food allergies
- Non-food allergies
- Statistics
- Food hazards
- Coeliac disease
- Gluten-free foods
- HACCP
- Prerequisites
- Labelling
- Allergen controls
- Training
- Personal hygiene and PPE
- What caterers must do
- Safety procedures

Course duration

The average time required to complete the learning is approximately **1 hour**, however the course is designed to go at the pace of the learner and can be completed in more time if needed.

Assessment

The online assessment for the course consists of **20 multiple choice** questions. In order to be successful, candidates must achieve a **75% pass mark (15 or above)** to obtain the certificate.

Certification

On successful completion of the assessment, the candidate will be able to print/save their certificate. In addition to this, an e.mail is sent to the candidate containing a link to the certificate. This is the simplest, most convenient way to achieve compliance. Iso, a QR code has been added to the certificate, which can be scanned by a smartphone to establish the certificate's validity.
