

LEVEL 1

FOOD SAFETY

Whether it's TV, radio, newspapers or your newsfeed, you are bound to see or hear something about food safety in the news.

Food safety is a constant concern for the public. It's important your employees understand their roles and responsibilities.

The course

This course is an ideal introduction to food safety, and a suitable learning resource for colleagues undergoing an induction in environments where food is cooked, prepared or handled.

Although it does not provide a qualification itself, the training meets all legal requirements and offers full compliance for low-risk food handlers. Along with its supporting PDF handbook, this course provides the knowledge and understanding required to go on to achieve any level 1 food safety (RQF) qualification, whether in catering, manufacturing or retail, with an approved training provider.

Areas covered

- Introduction to food safety
- Microbiological hazards
- Food poisoning and its control
- Contamination hazards and controls
- Safe handling and the storage of food
- Personal hygiene
- Food pests and pest control
- Cleaning and disinfection

Who is it aimed at?

Ideal for employee inductions, existing staff at an introductory level, and low-risk food handlers.

The course can also be used as part of the on-programme element of the new apprenticeship standards, and can support the knowledge, skills and behaviours apprentices need to effectively integrate into the workplace.

Key details at a glance
